Career Objective

Aspiring Software Developer with a solid foundation in full stack development, aiming to contribute technical skills and creativity to innovative web projects within a forward-thinking organization.

Profile Summary

- Skilled in developing interactive and responsive web applications using Python, SQL, React, JavaScript, Node.js, Express.js, and MongoDB.
- Proficient in HTML, CSS, Bootstrap, JavaScript, jQuery, JSX, Python, SQL and React Hooks.
- Strong debugging and problem-solving abilities with attention to detail.
- Collaborative team player with experience in agile environments and delivering client-focused solutions.
- Familiar with Git for version control and RESTful API integration.
- Capable of handling end-to-end web development, from design to deployment.

Professional Experience

Research Analyst

Ecesis Groups Private Limited | Apr 2024 - Sep 2024

- Conducted in-depth research and analysis on industry trends, market conditions, and competitor performance to provide actionable insights for strategic decision-making.
- Collaborated with cross-functional teams to design surveys, collect data, and present findings in detailed reports and presentations, supporting business development and operational improvements.

Internship

React JS Developer

ATEAM Soft Solutions Pvt Ltd | Nov 2024 – Apr 2025

Collaborated with a team of developers to build a responsive web application using React, ensuring an optimal user experience across devices

Roles & Responsibilities:

- Designed and developed responsive web applications using React.
- Created intuitive UI components following best practices in modern front-end development.
- Integrated APIs and maintained code repositories using Git.

Projects

E-commerce websites

- Developed a fully responsive eCommerce website using React.js for the frontend and Node.js with Express.js for backend APIs.
- **Features:** Product browsing with search and filters, cart and checkout functionality, order tracking, user profiles, ratings/reviews, and integrated email notifications.
- **Version Control:** Used Git for version control and collaborative development.

Movie App

- User developed a dynamic movie browsing web application using React.js and the TMDb API, with an engaging and responsive UI for a seamless user experience across devices.
- **Features:** Explore trending, top-rated, and upcoming movies with detailed info; includes genre filtering and favorites using local storage.
- **Version Control:** Utilized Git for efficient version control, ensuring smooth development and collaboration throughout the project.

Retail Management System

- Developed a retail management system using Python (CustomTkinter) and SQLite3 with modules for inventory, invoicing, and employee administration. Optimized billing workflows to improve operational efficiency and enhance customer experience.
- **Features:** Add, update, and delete operations for inventory and employee records, invoice generation with PDF export, and integrated email delivery to customers.
- **Version Control:** Used Git for version control and collaborative development.

Technical Skills

- **Front End :** HTML, CSS, Bootstrap, JavaScript, jQuery, React JS, Redux, TailwindCSS
- **Back End :** Python, Django, SQL, Node.js, Express.js, MongoDB
- **Tools :** Git, VSC Code, Vercel

Academic Details

B.E. Electronics and Communication Engineering (2019-2023)
Amrita College of Engineering and Technology, Nagercoil
Cgpa - 8.53 %
